

## TESTIMONIAL - Wrapetfill

'When considering investment opportunities, we at Phatisa undertake a rigorous, multi-faceted approach to due diligence as part of our investment process. We enlisted the services of Wrapetfill for the technical component of our due diligence investigation of a potential AAF investment. We were impressed by the team's professional approach. The team was very responsive and moved swiftly from working with us to develop and agree an appropriate terms of reference and proposal covering the scope of work, to getting on site and executing. The team was engaging and communicated findings and recommendations effectively and timeously through a detailed report that was easy to digest. Their technical expertise and in-depth knowledge of the industry on the continent provided useful insights and added significant value to our overall assessment of the opportunity. They gave us the confidence to pursue the transaction' **Duncan Owen, Senior Managing Partner, Phatisa.**
